Mr. Kurt Wagemann
USS Forrest Sherman DD-931 Foundation
720 Reedy Circle
Bel Air, MD 21014

Dear Mr. Wagemann,

Thank you for contacting Maine Maritime Museum about your Foundation's plans to preserve artifacts from the USS Forrest Sherman DD-931 and create a memorial to that ship. Maine Maritime Museum already preserves the plans for this vessel and continues to work with the builder, Bath Iron Works, to tell the stories associated with the great ships that shipyard builds. In this case, the Museum is interested in working with the Foundation to preserve the artifacts associated with the Forrest Sherman as part of Bath's 20th century history.

Please keep in touch regarding your work with the Navy to obtain possession of these historically significant artifacts.

Best wishes,

A handwritten signature in blue ink that reads "Amy Lent". The signature is fluid and cursive, with the first name "Amy" being larger and more prominent than the last name "Lent".

Amy Lent
